### Problems encountered populating Annex 8 and 9

- In order to complete most of the tables questions have to be cross-referenced from multiple sections, however as most people don't 'see' all of the sections and therefore cannot complete these questions; this led to a lot of empty tables
- The childcare type lists differed depending on which section was being analysed. For example although sessional day care is listed in section C it isn't listed in section H meaning this type has no language breakdown
- The language section was key to most of the tables yet it was placed at the back of the survey therefore there is a lot of absent data, It is possible that once respondents encountered this section they would want to complete and missed valuable questions
- The data abstracted from the survey had to be altered substantially for interpretation. As a result the analysis took longer than it could have. The tables were based on questions which had been changed. Therefore a route from the original survey to the final version had to be applied to work out which questions were needed
- Reporting tables are repetitive, for example 3 tables require very similar data just broken down a slightly different way; the formatting for some tables were also incorrect and these needed altering. Therefore further incurring delayed analysis.

### Childcare Sufficiency Assessment –Action Plan

The Action Plan must detail the actions, priorities and milestones to maintain strengths and address shortcomings identified in the Childcare Sufficiency Assessment.

The tables below identify those areas which must inform the assessment as per the statutory guidance.

**Please note that potential weaknesses may not be a true indication of local need due to a number of discrepancies within the data used. Torfaen County Borough Council acknowledges all potential insignificant gaps and will determine actions where appropriate. A service based Action Plan will also be submitted April 2017.**

Please comment:

We have an outbuilding which is currently used for Playgroup and wraparound. This building could also be used for Flying Start. I would be interested in someone contacting me regarding this"

"After school club – space is available"

"Space would be available pre and post school, but there is no demand. One family, who pick up all three children after four O'clock, have them access the library until 4pm then they wait in reception".

With regards to affordability of childcare, what is the likelihood of families taking up childcare if it was offered?

Area LSOA	With regards to affordability of childcare, what is the likelihood of families taking up childcare if it was offered
Abersychan 3	We use an After School Club which is run by Isobel Yacomen. This is taken up by working parents. However, if a free after school facility could be offered, I think many more parents would access it.
Abersychan1	Very likely
Croesyceiliog North 1	Likely
Fairwater 1	Again, there is no demand; the canteen is available, and staffed, from 08.00am and High School pupils that are not picked up by their parents after school make their own way home.
Llantarnam 3	Families would take up childcare if it was favourable prices and of good quality.
Llanyrafon North	Currently parents take advantage of the ASC and Holiday Club - these facilities are well supported despite incurring costs. When prospective parents make enquiries about sending their child to us, one of the questions we are asked is if there if After School provision.
Panteg 2	N/A
Pontnewydd2	Working parents are receptive to childcare costs.
St. Cadocs and Penygarn	Very few if there was a cost involved.

Dear Church Leader

### FOCUS GROUP TO CONSULT WITH PARENTS

Torfaen Family Information Service has a statutory obligation to complete a full Childcare Sufficiency Assessment (CSA) every 5 years; an assessment of the supply of, and demand for, childcare in Torfaen. The assessment will identify any gaps in provision through consultation with local parents, carers, children and young people as well as employers and childcare providers.

In addition to this, we have to form several focus groups to consult with some specific parent/carers groups during November 2016. These groups include: Faith groups.

I'm hoping that you know of parents of children aged 0-18 years who attend your Church and who would be willing to participate in a focus group. The focus group will be very informal and will involve a discussion around childcare in Torfaen – this would not take more than 45 minutes. The participants do not have to prepare anything and if possible I could come along to one of your existing meetings/services. Please can you contact me to discuss any possible opportunity to arrange a focus group.

To learn more about the Childcare Sufficiency Assessment or if you would like more information about childcare in Torfaen, visit the Torfaen Family Information Service website [www.torfaenfis.org.uk](http://www.torfaenfis.org.uk) or freephone: 0800 0196 330.

I look forward to your response and to meeting with you.

Yours faithfully

Fe fydd yr asesiad yn nodi unrhyw fylchau yn y ddarpariaeth drwy ymgynghori a rhieni, ofalwyr, plant a phobl ifanc lleol yn ogystal â chyflogwyr a darparwyr ofal plant.

Yn ychwanegol at hwn, mae'n rhaid i ni i ffurfio nifer o grwpiau ffocws i ymgynghori a rhai grwpiau rhieni/ofalwyr penodol yn ystod mis Tachwedd 2016. Mae'r grwpiau hyn yn gynnwys: Grwpiau Ffydd.

Rydwi'n obeithiol eich bod yn wybodus o rieni i blant 0-18 oed sydd yn mynychu eich Eglwys a fydd yn fodlon i gymryd rhan mewn grŵp ffocws. Bydd y grŵp ffocws yn anffurfiol iawn ac yn cynnwys trafodaeth am ofal plant yn Nhorfaen - ni fydd hyn yn cymryd mwy na 45 munud. Nid oes angen i'r cyfranogwyr baratoi unrhyw beth ag os yn bosibl galla'i dod i un o'ch cyfarfod/gwasanaethau sydd eisoes yn bodoli. Os gwelych yn dda, a wnewch chi cysylltu â fi i drafod unrhyw gyfle bosibl i drefnu grŵp ffocws.

Amy, 4 children (4,6,7,10) currently not using childcare as all children are in full time school

Leigh 2 children (2 years and 6 years), using playgroup for 2 year old

#### **Task 2**

In turn, all asked to pick 1 of 4 cards, to read out the question/unfinished statement and then answer/complete the statement. 4 questions/statements are:

- Is childcare important to you? Why?
- What do you like/dislike about the childcare you use?
- I am satisfied/unsatisfied with the childcare I use because...
- I use...(type of) childcare because...

Is childcare important to you? Why?

“Childcare is important to me because it brings them on leaps and bounds, the only thing that puts me off is the cost of it”

“I’m not using it at the moment”

“Not at the moment I don’t need it at the moment, but it will be when I start looking for a job. I need to be able to trust the people that’s going to look after my children” “I think that’s everyone’s worry” “that’s my biggest worry [trust]”

“I don’t use childcare at the moment but obviously when I go back into work/looking for work I will have to use it. Cost is obviously a major issue with childcare and making sure it’s beneficial to my child. At the end of the day there’s no point me sending my child, if there’s not even going to benefit from this.

### **What do you like dislike about the childcare you use?**

“After my sons incident I think they should have cameras just so they know exactly what and when that happened at the time of the incident, but other than that I think everything else is brill”

### **Task 3**

Parents asked to consider various possible areas for change to childcare – cards left on table (multiple copies of each) and parents asked to select any/all areas they feel need change. Discussion. The following areas for change were offered:

- Cost / Affordability
- Opening times
- Other suggestion
- Flexibility
- Location of childcare
- Childcare that caters for my child’s specific needs
- Availability of childcare places

Group members selected:

**Cost/Affordability** – 5 selected.

“I know people say they will help you out with the costs, , but most people they do part time work and by the time they’ve done that they’re paying just for the childcare. That’s not beneficial”

“Yeah they say they do pay 70%, if you work part time they pay 70% of your childcare but it still works out your still paying £150-£200 towards it. If your work part time you’ll only get £500/£600..”

“You’re working just to pay your childcare, there’s no point working”

“I agree, I think the cost is ridiculous and I think that’s what puts a lot of people off and I think if they were to bring it down more people would have the attitude oh I’ll go back to work, but at the moment everyone is like there’s no point”.

**Childcare that caters for child’s specific needs** –1 selected.

“Obviously they are all different aren’t they? I know they’re meant to be teach them the right things, but some people I don’t know whether they stick to the book and they do the right things, train people and that. I don’t know, I’m just a bit wary of whether they’re getting what they should be getting. Especially the cost, like I said you want them to get the best you can. I don’t know, like I said I don’t work in one but if you have some naughty children, do they like try and get them involved or do they let them do their own thing. Cause I know they’re humans end of the day, they’re parents like us aren’t they, but some are actually not parents, it’s really just a job to them isn’t it?”

**Location of childcare – 3 selected.**

“Location of childcare I think is important, because if your somebody that don’t drive or rely on public transport or family members for lifts and things like that. I think the most off-putting thing is when you do go back into work, if you haven’t got childcare close you’ve got to get yourself to childcare, then to work then back to childcare and back home from work, and again you’re going to be paying out more in travel expenses, as well as the cost of the nursery and the childcare on top of everything else. So I think the location is important, as if there’s one close in walking distance it’s not so bad.”

“I chose location, exactly the same I rely on public transport”

“I rely on my mum a lot”

**Other suggestion –2 selected.**

“I chose other suggestion, but it’s basically the same thing isn’t it, trusting. Trusting the people you send your children off where. Like I said the wraparound, they pick them up. Picking who up, you don’t know whose picking your child up, does your child feel comfortable getting picked up, you tell them about strangers in their life, then let somebody pick them up and take them somewhere else.”

“Same with this week you tell them not to take sweets from strangers, yet you take them trick or treating”

“It’s gaining that trust”

“I know you need to trust people, but then so much goes on in the world and locally it’s getting worse, you always wary where your kids going. But then again I suppose it’s not much different, I’m up the school now with my kids, but parents are probably thinking whose he?”

“I chose other suggestion, but mines probably the same as Leighs, they could be the most high qualified person that’s looking after your child, but again you don’t know their background and what their actually like. I’ve heard stories from people that I know, what they’re doing whilst their not in work and whilst they’re in work what they’re doing and just makes you think who are you leaving your child with.”

“I think to cover their own backs they should have cameras. Something did happen at my sons nursery....“some nurseries do have cameras....” “Yeah...it states on the side as well that it’s in constant use, but she told me it was turned off during the day”

**Availability of childcare places – not selected.**

**Opening times – not selected.**

**Flexibility –not selected**

## **CSA Focus Group 04.11.16**

### **People with an interest in Childcare**

#### **Choices in Childcare Course Cwmbran ICC**

5 students attended. For the purposes of the report, it was considered appropriate to consult with those who have an interest in childcare. The Choices in Childcare Course is a 5 week programme which looks at careers in childcare. Those who complete the Choices in Childcare Course have the opportunity to apply for an NVQ in Childcare.

#### **Task 1**

Parents asked to work in pairs to find out about and then introduce their partner. Information on group members:

Nerena - 1 child (15 months) not currently using childcare, full time mum

Regan – 1 daughter (2 years) not using childcare at the moment, but daughter attending Flying Start in January 2017

Vanessa – 3 children (6, 9 years) not using childcare at the moment, but children accessing after school clubs

Caroline – no children has niece and nephew, not using childcare.

Savannah – 2 children (3 years, 5months) not currently using childcare

#### **Task 2**

In turn, all asked to pick 1 of 4 cards, to read out the question/unfinished statement and then answer/complete the statement. 4 questions/statements are:

- Is childcare important to you? Why?
- What do you like/dislike about the childcare you use?
- I am satisfied/unsatisfied with the childcare I use because...
- I use...(type of) childcare because...

#### **Is childcare important to you? Why?**

“I used childcare years ago obviously when Regan was younger, I used to work in schools years ago so I have done the different clubs things like that, but there’s a lot I think still needs to be improved because I want to go back into work. But the worry is at the moment is obviously the childcare situation.”

“Like I said, I want to go back into work, I’d like to go back as I say I worked in school, so it was great when she was younger because obviously she was in school I had a childminder – childminder was amazing, absolutely amazing, so I would look at that again. I have a 9 and 6 year old who would have to do after school clubs, even if working in the school is ideal hours, but you still have to go to and coming from and things like that, so yeah at the moment it’s knowing what’s available for my children. Especially when one goes off to comp and ones still in primary you’ve got

two different sets of instances, so do I go for after school clubs, breakfast clubs, childminders what do you do? That's my concern as to what's about you know."

"Finding a suitable childminder/nursery for your child to go to that you feel their safe in for when you go back to work."

### **What do you like/ dislike about the childcare you use?**

"Well my little boy did go into childcare, into private nursery when he was about 1 or 2. The good thing about that was they excepted him with his epilepsy so I do think that is a really good idea because most / not most but some nurseries don't except people with additional needs or any kind of needs so I think that was brilliant of them and that they do provide quite a lot you know and do make the effort with your children. Like I said, my boy he feels comfortable going into nursery, my youngest is starting private nursery in January / February when he's about 8 months, and he'll learn so much from his walking to his talking to his speech and interaction."

### **Task 3**

Parents asked to consider various possible areas for change to childcare – cards left on table (multiple copies of each) and parents asked to select any/all areas they feel need change. Discussion. The following areas for change were offered:

- Cost / Affordability
- Opening times
- Other suggestion
- Flexibility
- Location of childcare
- Childcare that caters for my child's specific needs
- Availability of childcare places

Group members selected:

**Cost/Affordability** – 5 selected.

I just think that there is a lot out there you know, but there's not an awful lot of help that I know of, if you want to go back to work your paying half of your wages to get your child in and you know you've still got that kind of guilt there thinking well I want to make sure they're happy and safe. So it's the best place they can go to, but it's the most expensive because it's better and you know it's kind of then makes you wonder why you have gone back to work when you've got to pay out such an amount and then everyone get labelled as well that's lazy, you sit at home, and it's not that simple. especially for lone parents like going back to what you were saying with about Regan, it's going to be quite difficult because obviously if I go back to work she's not got me to look after [her daughter], so shell have to get childcare which obviously she will get help towards, but it's not, it doesn't cover everything does it? So that's kind a big one and a bit one for me as well. Because I know when I worked before I only had her and it wasn't too bad. But I was literally paying half my wages to my childminder, and at the time because I just rolled on it wasn't too bad,

the husband was working ok and it was good. But then as soon as I stopped working about 8 years ago, to go back now it's like wow..massive... it's a massive thing to do that again it is. So yeah I think it's quite a big reason why a lot of people don't or can't go back into work.

It is expensive, it's just when you're on benefits you don't get any help, I was paying £580 a month for my little boy two days a week in private nursery and in the end I had to cut it loose.

Yes even like me, even when my husband was working it was a ridiculous amount, so to think when they want people on benefits to go back to work but they're not really helping out an awful lot. But they're making you feel like your..you know lazy - no offensive, but they make you feel like that and you think to yourself well it's not, I want to get out there, I want to do it, but I can't do it if there's no help, not that you're asking can you pay all this..."just a bit"...yes, just that bit, once you're out there and your trained up and earning your money your fine then and trot on"

### **Opening times – 3 selected.**

Yeah for people who are working (an improvement)

I just think that obviously dropping children off at certain times as well and again like working in a schools and things like that you've got to get in for 8.30 or 8am, drop your child off at stupid times in the mornings and make sure you have a childminder who will allow for that because some don't do they? At its nurseries and its, then it goes onto the next one I was going to say about.the location

### **Location of childcare – 3 selected.**

Because it depends where it is..if you haven't got transport how do you get these children to you know, if you've got older that don't go to one nursery but they go to another so before you've even gone to work you're literally driving round. It's hard.

I looked at somewhere a few years ago to go to university and things like that, but I couldn't at the because by the time I'd driven my children to the childminder and dropped them off then gone to the colleges and things like that, by the time I would have done that I would have either been late or stuck in traffic and it's not fair on my children to have to get up at stupid o'clock to go, and then I just thought you know it's hard. She used to go to breakfast club and then I'd work in Bristol, so I'd drop her off in Magor and then go to work in Bristol, so she was up early and if it's there for you it's great but there's not much local either that I find.

### **Flexibility – 3 selected**

If I had to do a shift, as soon as they rung they had to be flexible for my time and see when I need them because work would ring up to do cover or anything like that, so they need to be flexible too. Some of them aren't flexible and some of them only do certain times..."like sessions"...yes"

Some of them are quite good now with wraparound and they do keep some on later on after school don't they? Some are, certain ones are quite flexible.

It's more nurseries I think that are the sessional

I could do an evening

.. "it's like care work, like shifts, if you want someone to cover you there and then they've got to be able to drop everything to have your child. That's amazing.

It's like the agency works, obviously to be able to do that you've got to be ready that morning and as you say if you can't get something at that point for your child, you've got to lead down work. So you're stuck.

### **Childcare that caters for child's specific needs – 3 selected.**

I was listening to what you said obviously as I've worked with special needs as well, so when you said about your son it's great that you had somewhere that actually supported him but there's a lot that won't acknowledge and haven't got it in place.

I think that they do....not against the staff..the fact that they haven't got people trained to do these sort of things, especially for younger children when they don't like to...acknowledge that there's any issues until they go off to school.

With my son he's got global delay, behavioural difficulties, epilepsy and he suffers with 'abysses' and things like that. But in school now it will be a big one, they'll have to cater his additional needs his LSAS, his epilepsy they'll have to be trained in this kind of stuff"...and until you're there and go down the process of statementing and things like that which I think I used to do that and it frustrated me knowing like in your position how hard it can be is something is not in place for your child".

I think there does need to be more around"... "Definitely"... "there's not much for disabled children ,additional needs, special needs, there's not much around at all". The government has a lot more funding than they are letting on"... "there's a lot that goes on in schools I knew first hand, a lot went on in schools and it's kept hidden from a lot of the parents, I was a support assistant so I was in the middle, I'd get on with the parent and I could say to you look your child will be safe and looked after and I'd be in there doing this and this, and teacher would say funding is there but we also need you in such and such class. That frustrated me, because it got to the point where as much as I loved it, I had to step back from it because it's frustrating. And when you say you want to send your child to know that they're safe so you can do your thing because you are entitled to it.."

"I don't want a phone call saying this and this has happened to him..how..was this not put into place"

"You don't want to worry about your child when you're in work"

### **Other suggestion – 1 selected.**

Suppose they all offer different things in different aspects, you know for what the parents needs and wants and see whether they can do it or not. If they can't then you are going to be looking around aren't you, for your child. That's all we do as parents, is look around for our childcare, government don't say here you are there's a little playgroup there to stick them in.

There closing these sort of places, there's a nursery by us they're trying to close and then they're making it bigger so children will get lost in schools. Which I'm really passionate about that, I think that's wrong, they shouldn't have these amazing super schools which great bits and pieces in there, but the children are getting lost in there. So when you send your child again, if they're not 100%...."I wouldn't be happy with that"... "Well my son went school and I had to remove him from that school to another school because he was just left. When he went to his new school they asked what was he being taught and I just thought you tell me, and I don't think that they liked it because when I told them I've done this I've worked in a school, can I do this, and they said oh not we do it different. I think the support has to be all round, you've got to be able to know that your child is safe wherever they are and that their best interests are being looked after the way we would. The way they should be. It's not really asking an awful lot if that's the job...and if that's what we want to do surely the people we are leaving our children with should feel that same way we do and there are some amazing ones, I mean I've been around loads but there's some where I think wow, why are you doing this job?

You have to have the heart (for this role in childcare) it's a shame.

**Availability of childcare places** – not selected.

**Working Parents**

**Torfaen CBC Employees, New Inn**

5 parents attended.

**Task 1**

Parents asked to work in pairs to find out about and then introduce their partner.  
Information on group members:

Rhiannon, 1 child (13 years), currently not using childcare

Emily, 3 children (6 years, 4 years and 4 years), currently uses childcare for all 3 (breakfast, afterschool club and playgroup)

Charlotte, 3 children (9 years, 7 years and 4 years), currently not using childcare apart from Grandmother one morning a week

Hannah, 2 children (6 years and 4 years), currently using childcare (breakfast, playgroup and family)

Dawn 2 children (14 years and 18 years), currently not using childcare

**Task 2**

In turn, all asked to pick 1 of 4 cards, to read out the question/unfinished statement and then answer/complete the statement. 4 questions/statements are:

- Is childcare important to you? Why?
- What do you like/dislike about the childcare you use?
- I am satisfied/unsatisfied with the childcare I use because...
- I use...(type of) childcare because...

**Is childcare important to you? Why?**

“Childcare is important to me personally because without it I couldn’t go to work, as I don’t have any family members that could help look after the children so I do not need childcare in order to go to work so it’s a necessity really”

“Childcare’s important to me, I also use my parents for childcare but I use a sessional playgroup for my son who also gets his nursery placement there as well so it’s very important for me for him to go there when he was 2 for socialisation reasons and obviously he’s getting his nursery funded placement there as well, I also use the breakfast club at the school where my daughter goes, again that’s really helpful for us because we’re managing to get to work on time”

“Childcare’s not important to me at the moment because both my children are self-sufficient at 14 and 18”

“I forgot about that, actually, I do use childcare I use breakfast club; my husband takes the children to school on his way to work and they go to breakfast club every the morning, the two eldest, so that is important to me”

### **What do you like/dislike about the childcare you use?**

“Again, it’s close to home the childcare that we chose and also it’s in the catchment for where he’ll go to school so it’s quite important I wanted him to have the circle of friends that were in the playgroup when they go up to reception, so that’s one of the main reasons we chose that because we did choose a different facility before for my daughter and it didn’t work very well with the transition into school because she went into school with none of her peers and it was quite a difficult time for her so that was a major deciding factor for us to have it quite local to the school we hope he will go into.

Also in relation to childcare that caters for my child’s specific needs, my little boy has a severe milk and soya allergy and the playgroup have been very very good accommodating his needs, they’re very good with the children, they let us know in advance if they are having any parties and they tend to get things all the children can have rather than try and separate him. So it’s very important that they can cater for him.

Similar thing for me, locality for childcare being based in the building I work in is handy, and next door to the playgroup as well so that’s really handy. Similar thing to Hannah with my son having his condition, there’s certain things he can’t eat because of his medication so they’re really good and aware of those things and it’s at the forefront of their minds. It eases you really, knowing that they’re aware of it and being looked after properly.

One of the reasons why I don’t use childcare is because I find it a little be confusing to be honest. There’s so many different options, and I don’t know what the best option is. So I’ve looked into them in the past for my children for different stages and I’ve never felt completely happy with any of the choices so I decided against it. I think that I never know, there’s a lot of uncertainty for me knowing where the first and best place for them to be at.

I am satisfied/unsatisfied with the childcare I use because... and I use...(type of) childcare because... were not selected.

### **Task 3**

Parents asked to consider various possible areas for change to childcare – cards left on table (multiple copies of each) and parents asked to select any/all areas they feel need change. Discussion. The following areas for change were offered:

- Cost / Affordability
- Opening times
- Other suggestion
- Flexibility
- Location of childcare

- Childcare that caters for my child's specific needs
- Availability of childcare places

Group members selected:

**Cost/Affordability** – See Flexibility 1 selected

**Availability of childcare places** – 2 selected

One of the hurdles I came up against with the availability of childcare when mine were a lot younger is because I used a childminder first of all rather than a playgroup, was availability for all three to go at the same time at the same place because of their numbers. So that was one hurdle, well It wasn't a hurdle as such because I just had Harry going then, but then when I had the girls luckily they took priority because Harry was already going there, but I can imagine that parents with more than 1 or 2 children if they're close in age and want to go to the same place that would be a hurdle if they're using a childminder.

There was a recommendation of a fantastic childminder that I would have been happy to use but of course because she was so popular there's no spaces.

Like you said, if you've got more children it's difficult because of ratios and things it's hard to try and get them all in together, or splitting the children into two different childcare forms

**Opening times** – 1 selected

The breakfast club opens 8.15am, but usually 8.20am but sometimes could do with it being open at 8.00am rather than 8.15am, that extra 15 minutes would make a massive difference to us. Same with the playgroup, we haven't got a wraparound facility at the playgroup where he gets his nursery education placement and that would have been really helpful for him for socialisation and a little bit of relief for my parents who do a lot of childcare for us. To have that as well, a little session to wrap around his education place would be fantastic. That could maybe come under other suggestion as well, but the opening times and a bit more flexibility on the wrap around, because it's difficult when you have a 3/4 year old it's hard trying to find that childcare to compliment nursery education. Just for me, that's what I would like to see in the area because there is no nursery in our catchment area so there isn't a playgroup who does the wrap around for the nursery placement, that's why we have the private provider that does the education place.

The problem is, not all private providers do that, which is why I had to take mine from where they were and put them somewhere else. If the day nursery did do that I probably would have kept them there and used wraparound then for the morning and afternoon. But because not all of them do that, you are limited for choice.

There is a day nursery local to us that does get education funding as well but then it goes against the whole point of trying to stay with some of the catchment children because we had such a difficult time with my daughter. I really really didn't want to put him through that even though he is very socially different, so that could have

been an option to have for a longer session but again it would have been the same problem. It might have been or it might not have been, but for me it was really important to for him to have that lovely smooth transition from nursery education place into school we some of his peers at least. There's so many different options, like you said earlier it's just trying to figure out which one to go for

**Flexibility – 1 selected**

I guess there's sometimes a lack of flexibility there, because when I have looked into my son going to nursery I guess it links with cost and affordability, but I don't want to pay for the school holidays. I understand that it's a business and I understand all those situations from their point of view, but however for me being a teacher I'm not paying six weeks holidays when I don't want my children going into nursery then yet you still have to pay for it to keep the place. So there are cost implications with things like that and then of course the lack of flexibility with my children to go to afterschool clubs but you have to pay the daily fee whether they are there 20 minutes or the whole session. There's no flexibility in that at all and so I haven't used them when actually it would make my life easier rather than them being with me constantly, when I'm trying to do my work they're around me.

**Other suggestion – not selected**

**Location of childcare – not selected**

**Childcare that caters for child's specific needs – not selected**

**ESOL Families**

**Syrian Families, The Powerstation, Blenheim Road, Cwmbran**

This focus group was intended to try to capture the opinions of families with English as a second language, about childcare. Four parents attended and were accompanied by an interpreter. They were asked to introduce themselves and clarify how many children they have and the age of each child.

- M.– 3 children, aged 6, 2years 8 months and 1yr 3 months.
- Mo. and Ma. – 3 children, aged 12, 8 and 3 years.
- Am.– 3 children, aged 6, 4 and 3 years.

**The parents were asked to answer a series of questions/statements as follows:**

Is childcare important to you and why? (If you don't use childcare, why don't you use it?)

What do you like or dislike about the childcare you use?

I am satisfied/unsatisfied with the childcare I use because.....

I use.....(type of) childcare because.....

Do you use any childcare for children with special educational needs?

**Responses**

**Is childcare important to you? Why?**

"The nursery is very important for the children because they will pick up new things and learn there and integrate with other children and make friends." (It was later clarified that the child was attending reception class.)

"It's important to have childcare if there is something they need to do i.e. like attend this focus group or support groups that can help them adjust to living in Wales."

"It will prepare them for primary school and they will learn. Teachers have some experience which doesn't exist in the home, so the children can be educated in particular things."

"Her daughter used to be shy and couldn't speak with anyone but after she went to the nursery she started to speak with anyone and to make friends." – When asked if it has also helped the family make new friends, the lady agreed that it had helped her make some new friends with the other parents. Other participants had not had the same experience though.

Jackie Charles, a tutor for adult education, asked a specific question relating to the English lessons the parents had been attending and the benefits that the crèche had provided for the parents. Prior to the crèche facility being available, the English lessons had been taking place for the parents but their children, 9 in total, were also having to attend due to a lack of childcare. Jackie Charles specifically asked how the participants felt now the crèche provided childcare and they could undertake the lessons without having to parent their children at the same time, aiding concentration?

“It was chaos with 9 children, being unable to concentrate and not able to understand anything, it was difficult for both the tutor and the participants. Being able to use the crèche has made them feel that their children are safe and looked after and they can concentrate on the lessons.”

The caseworker for the families, who also acted as the interpreter confirmed that lack of childcare during these lessons had been the biggest issue, causing some of them to stop attending, until the crèche was available again. It was impossible to concentrate with 9 children.

### **What do you like or dislike about the childcare you use?**

“There is nothing they dislike about the childcare, it is ok. It compares with what they have in their country. The staff are very friendly and the children like it there.”

### **I am satisfied/unsatisfied with the childcare I use because.....**

“I am happy/satisfied because my child is happy/satisfied.”

### **I use .....(type of) childcare.....**

“Crèche - to attend English lessons.”

“Nursery - for their children to learn new things.”

### **Do you use any childcare for children with special educational needs?**

“Older daughter has specific needs but is in school and they provide for/focus on meeting her needs. She is having speech therapy. They are happy if she is happy and she is happy sometimes, but finds it hard to make new friends there - partly because of her needs, but they are all working together to provide support.”

There were no children using childcare who had specific needs.

### **The following additional questions were asked:**

How/Why do you choose a particular type of childcare?

Do you choose childcare based on location; availability of places; or the cost?

Do they like the flexibility / the opening times?

## **Responses**

**How do you choose childcare? Why do you choose a particular type of childcare?**

“Location – it’s close to home.”

“Location – the nursery is attached to the same school as their brothers/sisters.”

“Location – crèche because they are here in the same building.”

**Do you choose childcare based on the cost?**

“The cost of the crèche has been covered because they are Syrian families”

Dear Parent

### FOCUS GROUP TO CONSULT WITH PARENTS

Torfaen Family Information Service has a statutory obligation to complete a full Childcare Sufficiency Assessment (CSA) every 5 years; an assessment of the supply of, and demand for, childcare in Torfaen. The assessment will identify any gaps in provision through consultation with local parents, carers, children and young people as well as employers and childcare providers.

In addition to this, we have to form several focus groups to consult with some specific parent/carers groups before February 2017. These groups include: Low Income Families and Families Seeking Employment or Training Opportunities.

We would like to invite you to a focus group to discuss your views on childcare on **January 5<sup>th</sup> 2017 for 1pm at The Old School, The Highway, New Inn, NP4 0PH.**

The focus group will be very informal and will involve a discussion around childcare in Torfaen – this will not take more than 45 minutes and you do not have to prepare anything. Refreshments will be provided.

Crèche will also be available in the same building for your children, please can you confirm with your PaCE advisor if you can attend.

##### **Child minding exceptions:**

- If the care provider is a parent, foster parent, or relative of the child.

- If the care is provided at a school and is incidental to the provision of education (where 'school' means a maintained school within the meaning of section 39 of the Education Act 2002, an independent school; or a school approved by the Welsh Ministers under s.342 of the Education Act 1996 (approval of non-maintained special schools)).
